catch us up  
in your storytelling Venus  
take us upstairs  
remind us sacred names  
unmask our faces  
unhide our fears

tell us visions  
sunlight cross the room  
enswirling webs of characters  
in garden dance  
valleys / mountains / wings  
rain

future us fragile earthlings  
closer to our intentions  
freeing ourselves of chains  
links violence forged: masculinity / competition  
prisoning our imaginary

one more kiss unsaid  
a case of love like yours  
up from underground  
dignity / kindness / charm  
unexpected meant to be  
morning wonder / evening grace
