

Tomorrow's Heart

He has waged a War without Congressional consent.

He has withheld funds appropriated by Congress, destroyed agencies they created.

He has appointed unqualified individuals to Offices — based only on their loyalty to him.

He has weaponized the Department of Justice against those he perceives as enemies.

He has unleashed a militia of masked and armed thugs,
who have terrorized our cities, and without warrants or due process,
seized, incarcerated and deported our neighbors.

He has pardoned loyalists convicted of crimes.

He has extorted millions of dollars from Law Firms and Universities.

He has accepted extensive bribes and shown himself vulnerable to all forms of flattery.

He has welcomed foreign investments in his family's cryptocurrency schemes.

He has alienated our Allies, befriended our enemies, provided comfort to dictators.

He has embarrassed us as a People before the United Nations,
at Davos and in his subservient behavior with Vladimir Putin at Helsinki.

He has fired qualified Women, Black Americans, People of Color, and LGBTQ+ Americans
from positions in the government — because being who they are.

He has engaged in erasing our official histories.

He has waged a Culture War, spewed distrust and division among us.
giving permission with his words and behavior for sexism, racism, xenophobia, homophobia...

Tomorrow's Heart will mend.
