S Smell of clover fields, taste of sea,
Becoming the Earthling meant to be –
Practical, intuitive, narrative spinning,
Love when at its very beginning.

Like everybody wanting closer to free,
Yet disciplined / first violin in symphony –
Honest, spontaneous, wholly sensuous,
Even your ambiguities say something to us.

It's about family, Saturn agreed,
By fact, desire as much as by need –
Relationships as verbs in the Present tense,
At an Omega of consequence.

What's Real underlies the pressing question,
Time running out, forgot to mention –
One sure way we could get down to business,
We do have a voice about this mess.
