Swirling moments memorable quotes,
Spontaneous sparkling river notes –
‘Tis a story eternally bending,
Present telling tale’s ending.

Committed to equality for a start,
Life as possibility kindness an art –
Feelingful intuition associative thought,
Spring sunlight the full moon caught.

Stars say more than just one tear,
Following Alice behind the mirror –
“Gardener Wanted,” tree sign hung,
Other language different tongue.

Job requires taking look around,
Dominance problem boils down –
Altruistic economic system overdue,
Trees birds the extinction issue.
