

Michael

Sun the edge a Babylon sky,
Windhover moment quickened eye –
Cerebral qualities sensitive side,
Veils cover tears cried.

Signs mirrors networked elements,
Winged fire creative intelligence,
Forges language gives chaos name –
Falling stars would seem more tame.

Choices forces mega directions,
Reason kindness resurrection –
Giving breath to living embers,
Confident storyteller to remember.

Whole new narrative radial shelf,
Informational self-reflective self –
If you can believe in butterfly wings,
People the power miraculous things.
