Sea as caldron sun for fire,
Mars and dawning day conspire –
Were Picasso the picture paint,
Entanglement without constraint.

Emerald river citrine sky,
Impossible to classify –
Summer heat autumn road,
Love like galactic stars explode.

Family friends pets confide,
Serious homemaker trustworthy guide –
Drought pollution worse troubles near,
No thanks a system greed and fear.

If Saturn a voice just might say,
Time needs you to imagine a way –
Modern version heavens analogue,
Adaptation eternal dialogue.
