

Robert

To the calling from the Sea,
You add undaunted integrity –
Swelling the tides relentless yearn,
Knowing Time bends / Minds turn.

At your window witnessing the rupture,
Twixt Cosmos and Self-as-Separate structure –
Caring / worried / compassionate analysis,
Ever one to tell it like it is.

Saturn's confident you've more to say,
Whoever could believe would come this day –
Deliverance juncture / history in tatters,
Given a voice in a moment that matters.

Narrative field workers urgently needed,
Earth and her Children quietly pleaded –
Redemption / forgiveness / paradise,
Your Words able to help pay the price.
