Listening the clouds and rusting rivers,  
Moments the larger picture delivers –  
Plus your Altruism that Jupiter mentions,  
You're all in on Human Redemption.

harpS pair well with your Life song,  
The Master Narrative's got something wrong –  
Too beautiful a Planet to want to transcend,  
Too responsible a Parent to want to pretend.

Offering forgiveness for things unforgivable,  
Making Humanity's healing conceivable –  
Sharing understandings / changing Minds,  
Not one Child hungry, a World made kind.

You've an idea of what we need,  
Spread unused wings / see our hearts freed –  
Eyes for every uncounted tear,  
The hour late no better year.
