Nature's respite promised Presence,
Ever changing fractal essence –
Wheat fields / Prairielands / cerulean sky,
Can almost hear the Planet sigh.

Reaching everywhere, untamed, invisible,
Among this inflection point's unforgettables –
Certified altruistic evolutionary thought,
Answering Kant's what we ought.

The Wind, of course, you probably guessed,
Working toward a World more blessed –
You're practical / rebellious, to say the least,
A Time in Eternity history creased.

Love of reason and performing arts,
Known to transform people's hearts –
Sway pines / wake the Garden,
Breath of Earth / Utopia's pardon.
