No matter the challenge, you're one to try,
Together alone, your Stars imply –
Step-by-step up the mountainside,
Strong, reliable, bona fide.

In places the trail follows the river,
Sparkling Sunlight splashes deliver –
Feelings of friendship carry your day,
A striking clarity in things you say.

To the point and thoroughgoing,
Meta-quick intuitive knowing –
Hard working at your Dreams,
Ever closer to what Life means.

Saturn here invites Possibility,
Take your wing wiggling capability –
Worlds can open in starting things new,
Surprise and wonder wait there, too.
