

# Deborah

O pen window summer rain,  
Soft warm through our un-named –  
Earth's irresistible nesting song,  
No other planet more belong.

S tardust fused with sun and water,  
Compassionate minded galactic daughter –  
Transmetamorphic becoming story,  
Lotus blossom emergent glory.

F eelings more than words alone,  
Concrete inimitable welcome home –  
Dragon wakes from centuries sleep,  
Ocean wavelength/plays for keeps.

G ratitude for those lines you crossed,  
Explanation love's madness lost –  
Place in trouble even favored know,  
Noise/rumors/time calling to us grow.
