BROWN earth knee-deep ferns,
Soft blue every morning yearns –
Marble stepping stones / lily valley scent,
Sweetness Shakespeare's sonnets meant.

Doves coo / housefinch chatter,
What flowers do for honeybees matter –
Fractal multiplicities / rosebud mind,
Wonder, responsibility, words entwine.

At the crossroads ancestors hallowed,
Reading signs events foreshadow –
Descending ascending garden vision,
Aware the atmospheric conditions.

Close to heaven as mountains get,
Locked up in something not tried yet –
Anticipated yet strangely unexpected,
The new possible your choices effected.
