Wrapped in mauve and crimson sky,
Mountain-edged beach sea gulls cry –
Wet sands, evening breeze,
Enfolding chance affinities.

In love with Truth / respectful of Science,
Coincidence, Choice, Self-reliance –
Mirroring the present magic season,
Times dreams escaping reason.

World stage / autumn river mind,
Great patience / storytelling kind –
Hummingbirds arguing / storms / drought,
How's Peace on Earth to come about?

Travels, secrets, long nights, tears,
And always a key / a possibility appears –
Every note, wave, breath immersed,
In your Hymn to the Universe.
